

About Us

Topaz Industries was established in 1995 and specializes in creating construction and building maintenance products designed for builders, architects, contractors and homeowners. We truly believe that we offer the best products in our industry and accompanied with our other strengths as listed below, we believe that we are the one to beat!

Some of our strengths: Independence - We are an independent company. Our independence gives us the freedom to continually invest in our infrastructure and people so that we can provide products and services of superior quality. Innovation - our continued success is built on developing innovative building products and services that provide superior benefits to our customers. We proactively seek improvements in everything we do. Responsiveness - we listen carefully to our customers, employees and partners and develop our products, services and processes to meet their needs. Customers First - everyone at Topaz Industries is focused on the needs of our customers and we take great pride in delivering unrivalled support and service and we strive to be a pleasure to do business with. Significant ? Topaz Industries is a key industry player. Our products are technical leaders and we are committed to having a positive impact on the building industry.
