Permaglaze Primer Mix A

PERMAGLAZE

High performance, high gloss, chemical and abrasion resistant epoxy-polyester coating.

DESCRIPTION:

PERMAGLAZE is a hybrid coating that combines the best properties of epoxies and polyesters. A durable, hard ?glazed type? finish suitable for interior or exterior is achieved. Used on concrete floors, as a high performance wall coating or as a re-glazing compound for bath fixtures

ADYANTAGES:

- ? Cures to a hard, tough abrasion and chemically-resistant film.
- ? Outstanding high gloss retention.
- ? Excellent color retention-resistant to fading.
- ? Impervious to most acids, alkali, solvents, oil, grease, brine and caustics.
