Tuffclean

TUFFCLEAN

Concentrated acid base concrete floor etching compound and masonry cleaner.

DESCRIPTION:

TUFFCLEAN is a highly effective, pre-packaged concrete cleaner and etching material containing acid stable surfactants and emulsifiers. **TUFFCLEAN** is used on hard steel trowled, dense concrete floors to clean, etch and prepare the surface to receive subsequent coatings, sealers, or in some cases, patching and resurfacing compounds. **TUFFCLEAN** is effective in removing most surface contaminants that impede adhesion.
